

LIGHTHOUSE REEF ADVENTURE

Tropical Wildlife & Hidden Coral Reefs!

Trip Details

7 days / 8 nights

Price

\$1739 USD

Departures 2010

Jan 1, 31

Feb 6, 20, 26

Mar 7, 13, 19, 25

Apr 4, 10, 24

Activities

Sea Kayaking
(paddling & sailing),
Snorkeling ,Fishing,
Hiking , Birding,
Photography,
Natural History
Interpretation

Accommodations

1 night inland lodge
6 nights 1 basecamp (safari
-style tent)
1 night hotel

The Setting...

We begin our trip with an introduction to the inland waterways of the *Crooked Tree Wildlife Sanctuary*. Here we experience, close at hand, the astounding diversity of birds and wildlife for which Belize is renowned. Located 33 miles northwest of Belize city the sanctuary provides both the abundant food sources and the safe resting areas necessary to support a large and diverse population of birds. The best time for viewing resident and migrant birds is December until June, during Belize's dry-season.

Next, we catch our motor charter to spectacular Lighthouse Reef, one of only four coral atolls in the Caribbean, and home to the famous Blue Hole. In 1972, Capt. Jacques Cousteau and the intrepid crew of the *Calypso* explored and filmed this incredible atoll, showing its amazing underwater diversity to the world for the first time.

In partnership with the Belize Audubon Society, our partners have established an Adventure Camp within the Half Moon Cay Marine Reserve, opening up for the first time this spectacular wilderness to adventurers.

A Note About the Ecology...

Flora...

Belize's Barrier Reef is the largest reef in the northern hemisphere, second largest in the world, extending 185 miles (300 km) along the coastline. Approximately 35 miles beyond the Barrier Reef, lies one of Belize's most spectacular atolls – Lighthouse Reef Atoll. These circular shaped reef systems climb from the ocean floor and surrounds a central lagoon. The reef structure is primarily made up of two kinds of coral, the hard hydro-coral (reef-forming coral), such as brain coral or elkhorn coral, and the soft corals, such as sea fans and feather plumes. The lagoon shelters one of the world's most diverse sea environ-

LIGHTHOUSE REEF ADVENTURE

ments; harbouring an extensive community of fish, shellfish, and patch reefs. One mile off the eastern shore of the atoll, the reef wall quickly drops 2400-2800 feet to the ocean floor below. The interaction between the deeper, open waters of the Caribbean and the sheltered lagoons of the atoll, results in a diversity and abundance of marine life, which is unsurpassed for sea kayaking, snorkeling and diving.

Fauna...

On Half-Moon Caye, we have the opportunity to view a diverse range of marine life and tropical birds. While exploring and snorkelling the atoll and the surrounding patch reefs, there are opportunities to see grouper, bonefish, angel and parrot fish, stingrays, conger, moray eels, and goatfish; just to name a few. Some of the bird-life includes osprey, royal terns, red-footed boobies, frigate birds, hawks, mangrove warblers, and white-crowned pigeons. Around the atoll and the barrier reef, there are nesting sites for loggerhead, green and hawksbill turtles. If we're lucky, we may see them while out snorkeling or kayaking. We will definitely have a chance to see and sample the main staple for Belizean fishermen, the spiny lobster (when in season) and the queen conch.

Day 0 : Arrive at the Belize International Airport where you will be met by our representative and transferred to the Birds Eye View Lodge, in the Crooked Tree Wildlife Sanctuary. After checking into our accommodations we have a chance to meet our fellow travelers and enjoy a fine meal and as time permits explore Crooked Tree Village, one of Belize's oldest Creole Settlement. Transfers from the airport, dinner activities and lodging are included. *This day is your day to arrive before the trip starts, meet your fellow travelers and acclimatize to your new tropical environment.*

Accommodation: (Lodge)

Meals: Dinner

Day 1: Coffee is served at sunrise, and with binoculars in hand, we enjoy the waking wilderness and many hundreds of birds feeding right in front of the lodge along the shores of the Crooked Tree lagoons. After a healthy Belizean breakfast we'll embark by boat to explore the area. Throughout the sanctuary we have tremendous birding and wildlife opportunities: iguana, turtle, parrot, ibis and Morlet's crocodile are frequently seen. Later in the day, we'll drive along the old Belize Road to the sea where we board our motor charter that takes us through white sand cays and mangrove ranges, then past the main barrier reef to Lighthouse Reef Atoll, at the furthest edge of the Belize Reef System, 55 miles offshore of the mainland. On reaching Halfmoon Cay your guide team will orient you to our new island setting and settle you into your accommodations and camp.

Accommodation: (Half-moon Basecamp)

Meals: Breakfast, Lunch, Dinner

Day 2,3,4: Due to its isolation from the mainland, the waters of Lighthouse Reef Atoll are exceptionally clear with inspiring scenery and a fabulously rich reef system that offers some of the best kayaking, snorkeling and diving in the Caribbean. To begin, the guides provide instruction; teaching the fundamentals of sea kayaking, snorkeling and safety in the tropics.

FOR MORE INFORMATION OR

LIGHTHOUSE REEF ADVENTURE

Over the next few days we have many options to explore, including a shipwreck that looms just north of the caye. In 1971, a ship named the Ermlund lost power during a storm and was deposited on the reef by a large wave. This 4000 ton wreck sits silent as a landmark and is one of many shipwrecks in the area that serve as a constant reminder of the hazards of navigating these waters. We also have ample opportunities to learn from our guides about the marine reef ecology and the island's mangrove and interior forest habitat spread over the park's 45 acres. Many species of birds nest on the island, including a 4,000 red-footed booby colony for which the Audubon Society has built a series of viewing platforms to intimately observe the many nesting sites. And, of course, we always have the option of hanging out in a hammock with a good book and a cold drink!

Accommodation: (Half-moon Basecamp)

Meals: Breakfast, Lunch, Dinner

Day 5: The "aquarium" is today's big adventure. We pack a hearty lunch and our snorkel gear in our kayaks and paddle with motor support. This dive spot is known for its profusion of fish and towering coral formations. We return home, stopping at the Half-moon Wall for a spectacular drift snorkel over the undersea cliff of the atoll.

Accommodation: (Half-moon Basecamp)

Meals: Breakfast, Lunch, Dinner

Day 6: Today, we paddle along the protected waters of the southern reef to Long Caye where we have a chance to snorkel some of the atoll's best patch reefs. After a full day of exploring, we return just in time for a wonderful seafood dinner prepared by our cooks.

Accommodation: (Half-moon Basecamp)

Meals: Breakfast, Lunch, Dinner

Day 7: For our last morning at Lighthouse, the choice is yours. Don a mask, snorkel and fins for a visit to a favorite patch reef enjoy walking the island trails or beach comb along the island beaches before the motor charter arrives to pick us up for the return boat trip back to the mainland. We transfer to the Belize Biltmore Plaza Hotel where we can enjoy a fresh shower and a swim in the pool.

Accommodation: (hotel)

Meals: Breakfast, Lunch, Dinner is not included on this day

***NOTE: Due to the remoteness of the Lighthouse basecamp, the activities on the reef portion of this trip are weather dependent and the following itinerary is a 'guide,' and will remain flexible and open to changes at the trip leaders' discretion.**

Scuba Divers...

There are some great opportunities to dive at Lighthouse Reef. Optional diving is available for certified divers on certain days of the trip. Single tank dives are available from \$49 US. Please let us know in advance if you are considering diving during the trip as we often need to make special arrangements in advance. We can also arrange a variety of dive packages before or after your trip. For further information please contact our office.

Equipment...

While at our private base-camp on Half-Moon Caye, our guests have unrestricted use of the following equipment: Double Kayaks (outfitted with special sails), Single Kayaks, Complete Research Library, Field Marine Lab and Weather Station. On the island, we are in communication with the mainland via Satellite phone.

LIGHTHOUSE REEF ADVENTURE

Accommodation...

On day 0, we will be staying at Birds Eye View Lodge, situated on the water's edge of the Crooked Tree Lagoon. This comfortable Belizean-style hotel offers private bath and lakeside views. Over top of the hotel there is a deck and bar, which is a perfect place to catch the evening breeze and reminisce over your recent discoveries.

On Day 1 to 6 we are "base camping", sleeping in tent-walled cabanas. These spacious safari-style tents have ample headroom to walk around and are on raised wooden floors with double or single beds.

On the final night we will be staying at the Belize Biltmore Hotel in Belize City. This is a modern and comfortable hotel, located 3.5 miles north of Belize City, with a lovely central, courtyard and swimming pool to relax and unwind.

What's Included...

All meals (fully catered) while you are at our Half Moon Cay base-camp
Some complimentary beer, wine or rum drinks
Unlimited use of our Equipment and facilities
Professional guide and sports instruction services with Belizean and North American leaders
All accommodations including lodge on 'Day 0' and hotel the night after the trip ends.
Half-moon Caye Marine Park user fee
Comprehensive pre-trip information package
Financial Support for Conservation and Education programs in Belize

What's Not Included...

Gratuities
International Flights & Airport Departure Tax
Snorkeling or Dive Gear & Scuba Diving fees
Extra costs due to late Arrivals and other circumstances beyond our control

Thinking about seeing other parts of Belize with IEC?

Why not come a day or two early and explore more of Belize's interior, including a boat journey on the New River to the Mayan city of Lamanai. Also for those who are interested in visiting both of Belize's premiere atolls take a look at our 3 day Glovers Reef Getaway or full week trip. Call our office for details.

Getting back to Belize City ...

Your transportation back to Belize City is included in the cost of the trip. The final night is spent at the Belize Biltmore Plaza, 3 1/2 miles north of Belize City Central. This is a great point to make extra arrangements to travel further on in Belize, or to return to the International Airport which is just a short taxi cab away.

Thinking About Traveling Independently, Before or After Your Trip?

With over 20 years of exploration in Belize, our very knowledgeable and experienced office staff can offer you a wealth of travel information to help you plan the best vacation possible! However, we do recommend that you read up on the country and find what interests you. Once you find an area of interest, give our office a phone call.
